## EXPERIENCE

---

### UW Governance Risk Compliance Association

April, 2024 - Present

VP of External Relations

Waterloo, Canada

- Build and maintain partnerships with professionals in fintech, cybersecurity, enterprise risk management, and regulatory compliance to support speaker events, mentorship, and workshops.
- Coordinate with government bodies (e.g., Ontario Treasury Board Secretariat) and consulting firms to host interactive sessions that introduce students to real-world GRC practices.
- Manage all external communication, including outreach emails, LinkedIn messages, and networking follow-ups to secure event guests and collaborative opportunities.
- Lead external collaboration initiatives with other UW clubs (e.g., UW Venture, UW FinTech) to co-host cross-disciplinary events on topics like risk in emerging technologies and data governance.

### UW Data Science Club

April, 2024 - Present

Multimedia and Social Media Coordinator

Waterloo, Canada

- Manage the club's social media presence, promoting data science workshops, industry panels, and technical events across Instagram and LinkedIn.
- Design and schedule content including Reels, stories, and event graphics to boost student engagement and event attendance.
- Collaborate with execs to align posts with club goals and maintain a consistent, professional brand voice.
- Highlight key initiatives such as Leetcode prep, alumni chats, and hackathons to showcase club value and attract new members.

### STEAM Change Mentorship Program

Sep, 2023 - June, 2024

Youth Lead Mentor

Mississauga, Canada

- Achieved a certificate for mentoring and leading projects comprising (Science, Technology, Arts, Engineering, Mathematics) topics for elementary and middle school students.
- Assisted students in developing ideas and creating a live product example and presentation that addressed a Sustainable Development Goal of the United Nations.

### Code Krafters: Clarkson Coding Club

Sep, 2023 - June, 2024

Founder/President

Mississauga ,Canada

- Launched a student-led coding club focused on collaborative learning, programming discussions, and creative project development.
- Led initiatives to support students preparing for the Waterloo Canadian Computing Contest (CCC), with an emphasis on Java.
- Mentored both beginner and advanced students by creating an inclusive learning environment and sharing curated coding resources.
- Organized team-based projects and brainstorming sessions to encourage problem-solving and technical exploration.
- Developed leadership, goal-setting, and project execution skills through club planning and mentorship.
